

We Won't Forget

As we trudge ahead
through the permafrost
of the ones we lost

Will you build a fire
when you reach the shore
if you get there before?

*We won't forget
We won't forget*

Gather up your stones
Pile them sturdy and high
'til they pierce the sky

Lift your voice to heaven
with a mourning song
that will make us strong

*We won't forget
We won't forget
We will remember the price that you paid
We won't forget
We won't forget*

*With no regret
With no regret
You gave your life as a sacrifice
We won't forget
We won't forget*

Though we grieve, we won't despair
We're still breathing freedom's air

Gather every stone
Sing a mourning song
It will make us strong

We won't forget
