

Right Wrong Girl

**She's the right wrong girl
She's the right wrong girl
How I love her
She's like no other
Like no girl ever
How'd I get her?**

**She's the right wrong girl
She's the right wrong girl**

**You follow convention
Or rules of attraction
You want her attention?
You're just a distraction**

**She cannot be pressured
Her favors aren't curried
She'll hold out for better
And will not be hurried**

**She's the right wrong girl
How I love her
She's like no other
Like no girl ever
How'd I get her?**

**Every move you make is chess
But your moves will not impress**

**Go for a photo
She'll blink when it flashes
You flatter her falsely
She'll ask what the catch is**

**You're watching The Notebook
You're thinking she'll cry now
She's falling asleep, and
You finally realize**

**She knows the way
And lighting up her face
is grace**

**She's the right wrong girl
She's the right wrong girl
How I love her
She's like no other
Like no girl ever
How'd I get her?**

**I'm in love with the girl
My Georgia girl
My right wrong girl**
